MEMORANDUM FOR: Assistant Administrative Officer

SUBJECT : Special Intelligence Clearances

REFERENCES : (A) SAPC-4758: Memo to AD/CI from Project Director dated 23 March 56, "Retention of SI Clearances on Project Personnel Going Overseas"
(B) SAPC-4759: Memo to Project Director from Assistant Administrative Officer dated 23 March 56, "Questions Regarding SI Matters Overseas"

1. I have signed the first of the above referenced documents and sent it along to Mr. Sheldon,

2. The second document I have turned over to Mr. Reber with the request that he explore these matters with Mr. Sheldon or an individual designated by Mr. Sheldon. Mr. Reber has the responsibility both of ascertaining intelligence requirements which define the targets for this Project and also of helping to arrange for intelligence support of our operations where necessary. In the performance of the latter function, he is taking the major responsibility for arranging the flow of Special Intelligence material that is needed for intelligence operations. Accordingly, I believe he can handle matters concerning SI clearances and the flow of SI material overseas.

(sgd) Richard M. Bissell, Jr.
